

Plot code:			
Plot name:			
State, Country, Continent			
Census date:			
Funding project:			
Project PI(s):			
Inventory leader:			
Botanist(s):			
Assistants:			
Plot description (written description of plot):			
How to find plot (nearby villages, trails, streams, etc.). Draw map if necessary			
Plot orientation	Add to plot notes compass bearing true or magnetic north?		
GPS coordinates DECIMAL	Latitude (Northing)	Longitude (Easting)	Elevation
0,0m:			
100,0m			
0,100m			
100,100m			
Estimated accuracy (+/-m) (from GPS)			
GPS model			
ForestType (please circle)			
Moisture	Dry, moist, wet		
Elevation	lowland, Pre-montane, Lower montane, Upper-montane		
Edaphic	Brown sand, former floodplain, seasonal flood plain, rarely flooded, swamp, terra firme, sand		
Status	Old-growth, Logged, Burned, Mixed: Old-growth and Logged, Mixed: Old-growth and Burned, Mixed: Old-growth and Vehicle Trail, Mixed: Logged and Burned, Mixed: Old-growth and Secondary, Mixed: Burned and Secondary, Mixed: Logged and Secondary Secondary forest, young (<10yr); Secondary forest, intermediate (10-24yr); Secondary forest, older (25-49yr); Secondary forest, maturing (>50yr); Secondary forest, age unknown		
Slope	Flat (0 - 2 degrees); Almost Flat (2 - 5 degree slope); Slightly Sloping (5 - 10 degree slope); Moderately Sloping (10 - 20 degree slope); Steep (>20 degree slope)		
Comments on other natural disturbance (Add to Census notes):			
Anthropogenic Disturbance since last census	yes	no	
a	signs of hunting		
b	non-timber forest product harvesting		
c	trails (footpaths)		
d	trails (mechanized vehicle)		
e	trees <10 cm cut		
f	trees ≥10cm cut
