N∘	Seg	Ld	Species	DBH	POM	Dist x	Dist y	Comments

Date	Date the data was collected
N°	Identification number of the individual
Seg	Segment in which the tree was found
Ld	Side of the trail in which the tree is found, considering the direction of travel, from point 0 to 5 km
Species	Species name
DBH	Diameter at chest height
POM	Diameter measuring point
Dist X	Distance perpendicular to the tree found
Dist Y	Distance from the tree to the beginning of the trail
Comments	Relevant observations
